

This is a family man's grass. EZ on mowing, EZ on water, and EZ on maintenance. It is deep green in color with a medium leaf texture and open canopy. This grass tolerates adverse wear conditions, and also recovers well. It is an excellent choice for large areas where rotary mowers are used. Perfect for the care-free mind. EZ-Turf may be overseeded for winter color.

Ideal for home lawns, landscapes, schools, and parks.

Features and Benefits

Color

- Dark green with bluish hue

Texture

- Medium

Performance

- Extremely durable.
- Great for high traffic areas.
- Quick to repair itself.
- Non-pollinating, non-allergenic.
- Drought and heat tolerant.
- Open growth structure allows for easy overseeding.

Climate

- Thrives in warm to hot climates
USDA zones 7 to 11.

Shade Tolerance

- Not shade tolerant.

Maintenance

- Very low maintenance..

Mowing

How To Specify EZ-Turf

When ordering, please specify sod or stolons. Sod options are regular, big-roll, thick-cut, washed and overseeded. Ask about our custom growing service for special turfgrass blends. Other options available from West Coast Turf are expert installation and shipping anywhere in the world.

West Coast Turf— A Full-Service Company

We ship anywhere in the world! Our trucks are standing by to deliver your turf fresh and ready to plant. We can also prepare your turfgrass for shipping by air to any overseas destination. Your turf will arrive healthy and on time.

We can install your new sod!

For any type of project, no matter the scope or location, our skilled crews will use their specialized high-tech equipment to install your new turf quickly and dependably. You can count on our experts to get the job done right the first time.

Options

Regular sod comes in 16" x 72" rolls with 1/2" of soil. Each weighs approximately 45 pounds. Great for normal conditions.

Big-roll sod is 42" x 105', allowing large areas to be sodded quickly and efficiently. Great for large sports fields, parks and cemeteries.

Thick-cut sod has up to a 2" soil base that provides anchorage for the sod until its roots knit to the subsoil. Ideal for renovating a sports field that needs to be back in play within a few days.

Washed sod has had soil removed from the roots to help eliminate sod-to-soil incompatibilities and to help the sod knit to the soil faster. Reduces shipping weight.

Overseeded sod is perfect for fall-season installation. No need to overseed!

Stolons are broadcast like seed on a prepared bed. Installation is easy and inexpensive.

We can grow your special blend!

Need a specific blend or mix of turfgrass? Our expert farm crews can grow sod to meet your specific requirements—and on time.
